SPACE SOLUTION & BENEFITS

# The Space Saver

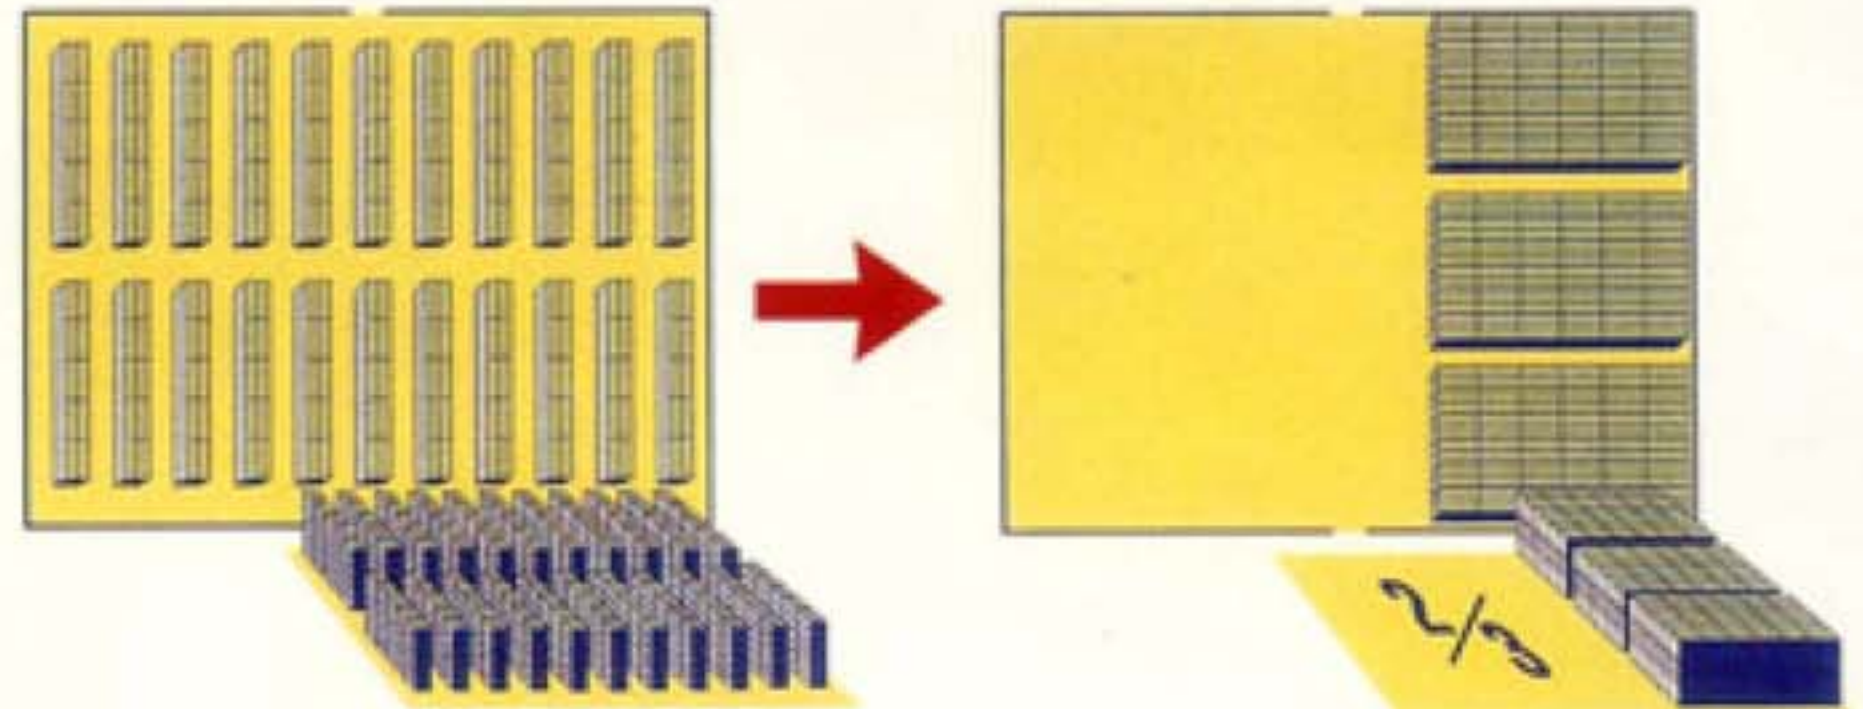

## THE ULTIMATE IN HIGH DENSITY STORAGE

### COULD YOU USE MORE SPACE?

When storage needs outgrow available space, the problem is usually tackled with a move to larger premises, an expensive option.

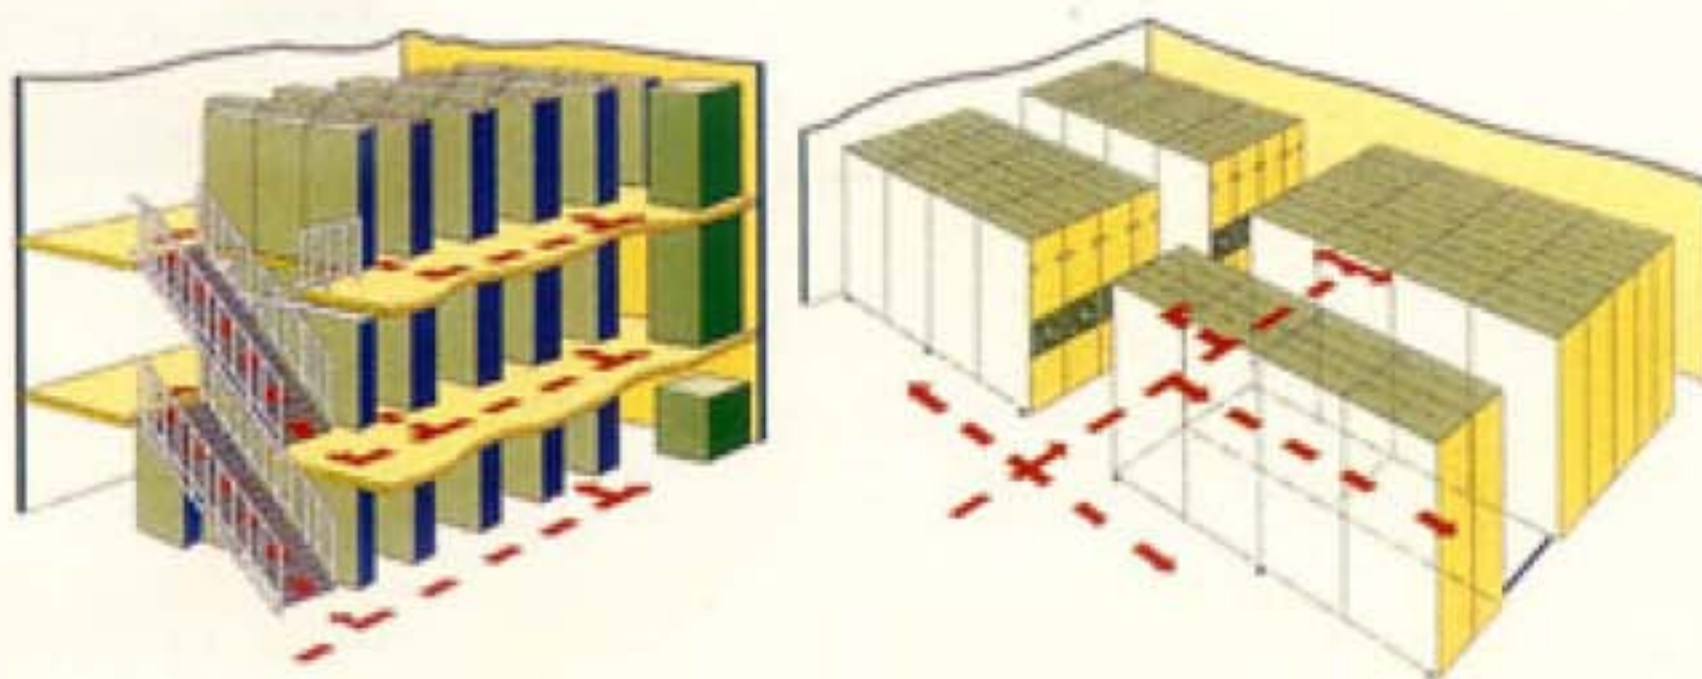

But there is an alternative. you can increase storage efficiency with a Rotary Mobile Shelving Systems. This:

- \*saves money
- \*boosts efficiency
- \*improves your working environment

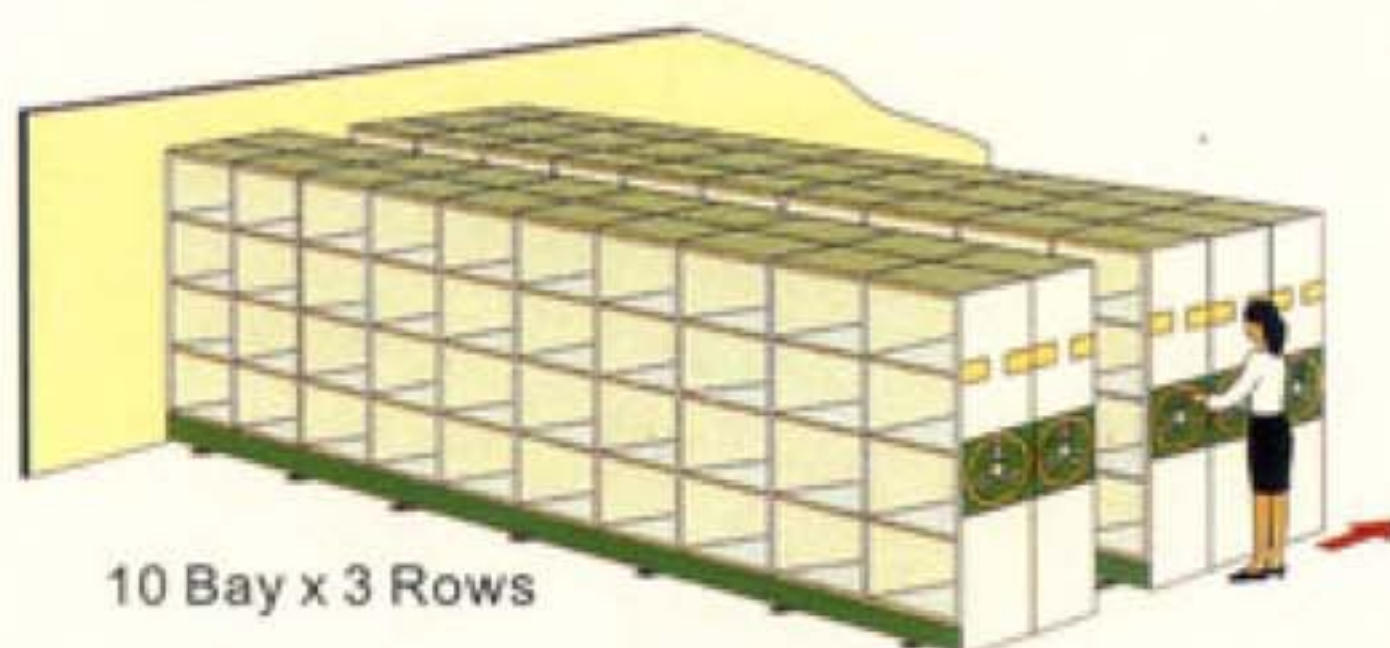

### CREATE SPACE FOR ALTERNATIVE USAGE

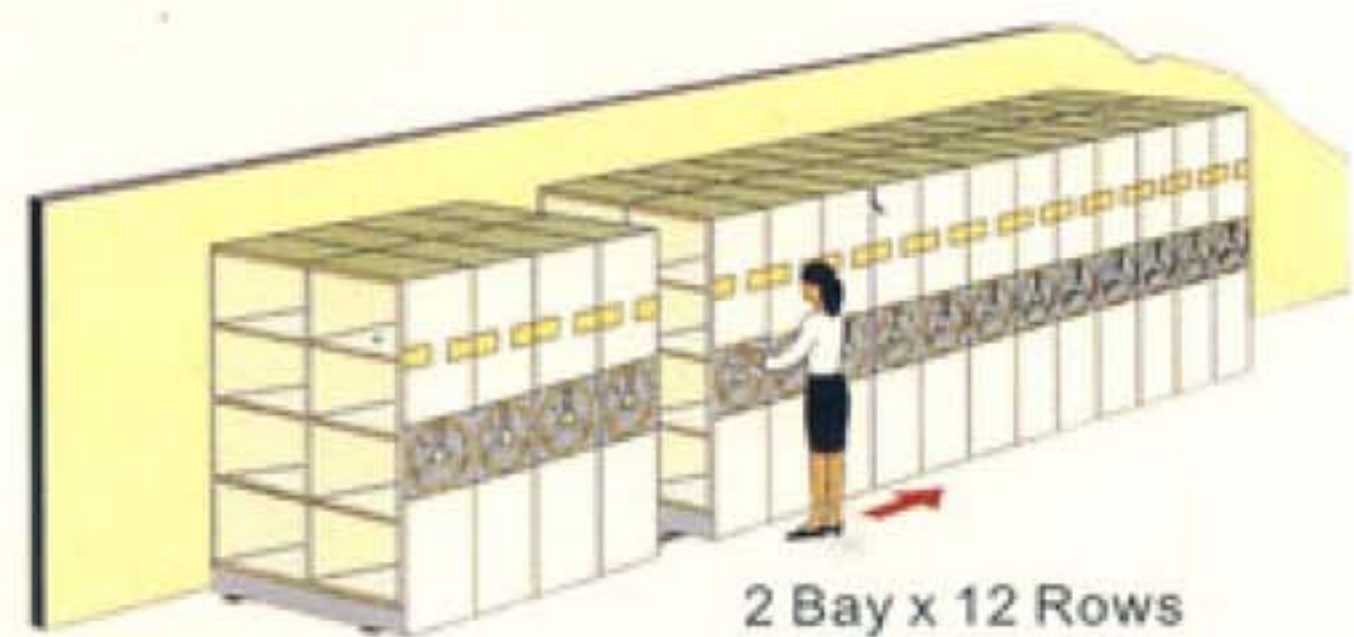

Only one aisle is required to provide access to all shelf locations. The system fully utilises the full height, width and depth-allowing you to maximise storage in the space available. If you do not need additional storage capacity, you may be able to free-up space for other purposes. The closed aisles also bring security to the items stored.

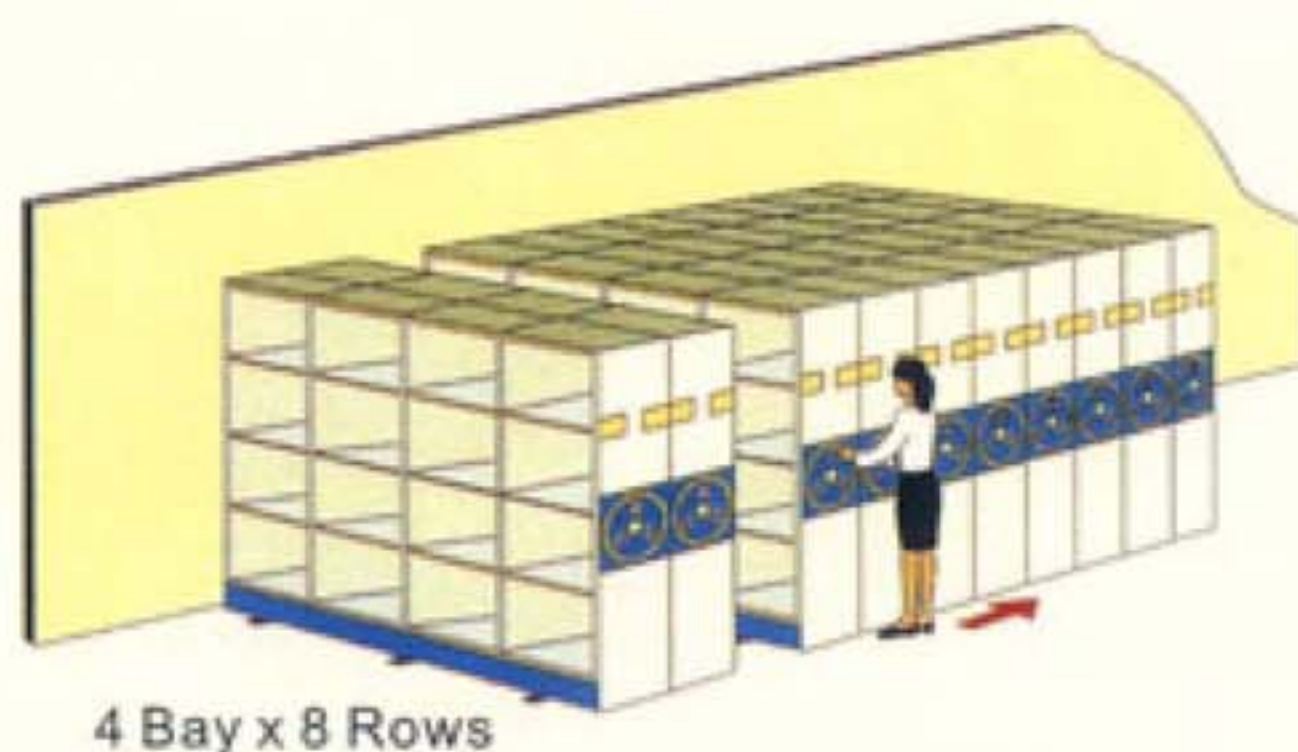

## EASY HANDLING AND MANAGEMENT.

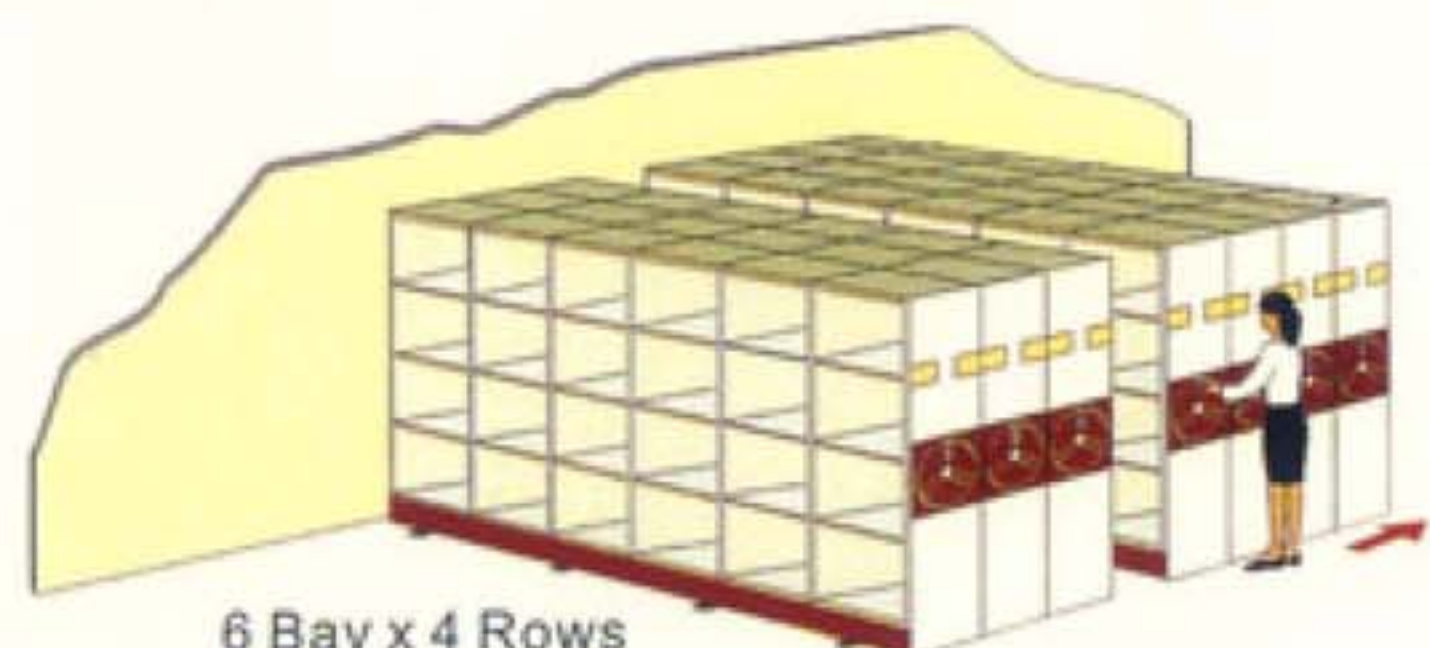

10 Bay x 3 Rows

2 Bay x 12 Rows

4 Bay x 8 Rows

6 Bay x 4 Rows

### STYLING AND BEAUTY

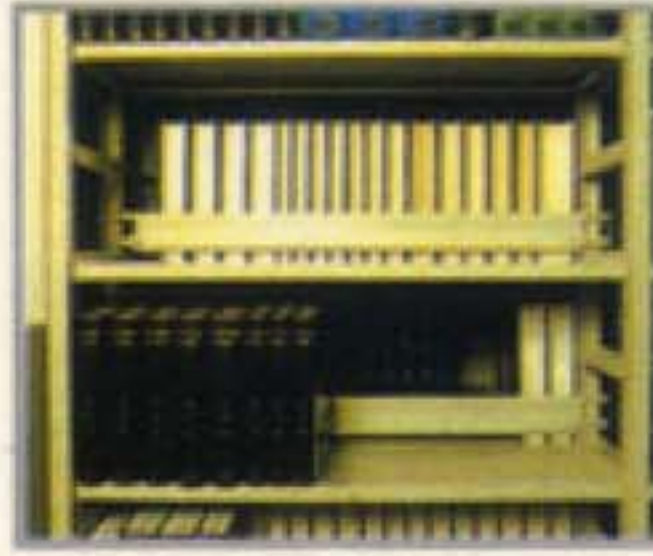

Rotary Mobile Shelving Systems can be tailored to the activity level of any type of operation. All we need to determine is how often access is needed to a storage position. And regard-less whether it's rack storage or unit storage on shelves, it allows quicker and easier order-filling because it is in a smaller space.... therefore less traveling time for an operator.

## A CHOICE OF ACCESSORIES.

Side Support

Back Support

Fixed Divider

Adjustable Divider

Slotted Divider

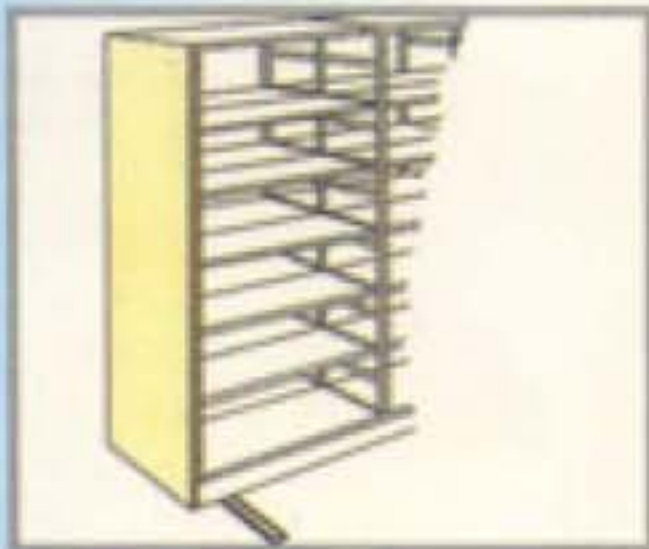

Hanger

Slide Table

Hanging Frame

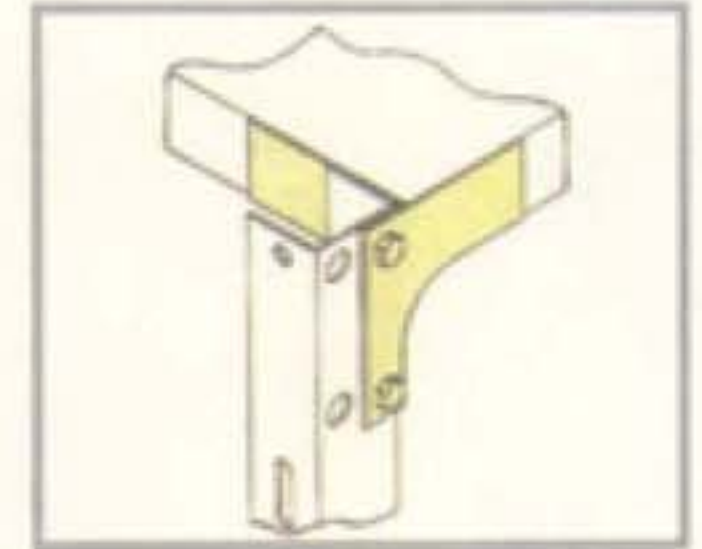

Back Panel

Side Panel

Lighting

Gusset Plate

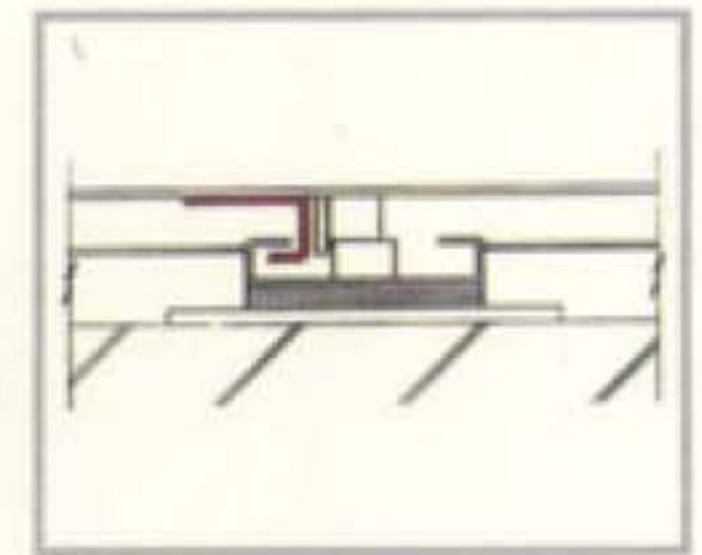

Central Safety Lock

Key Lock

Disk Shelf

Bottom Anti-Tilt

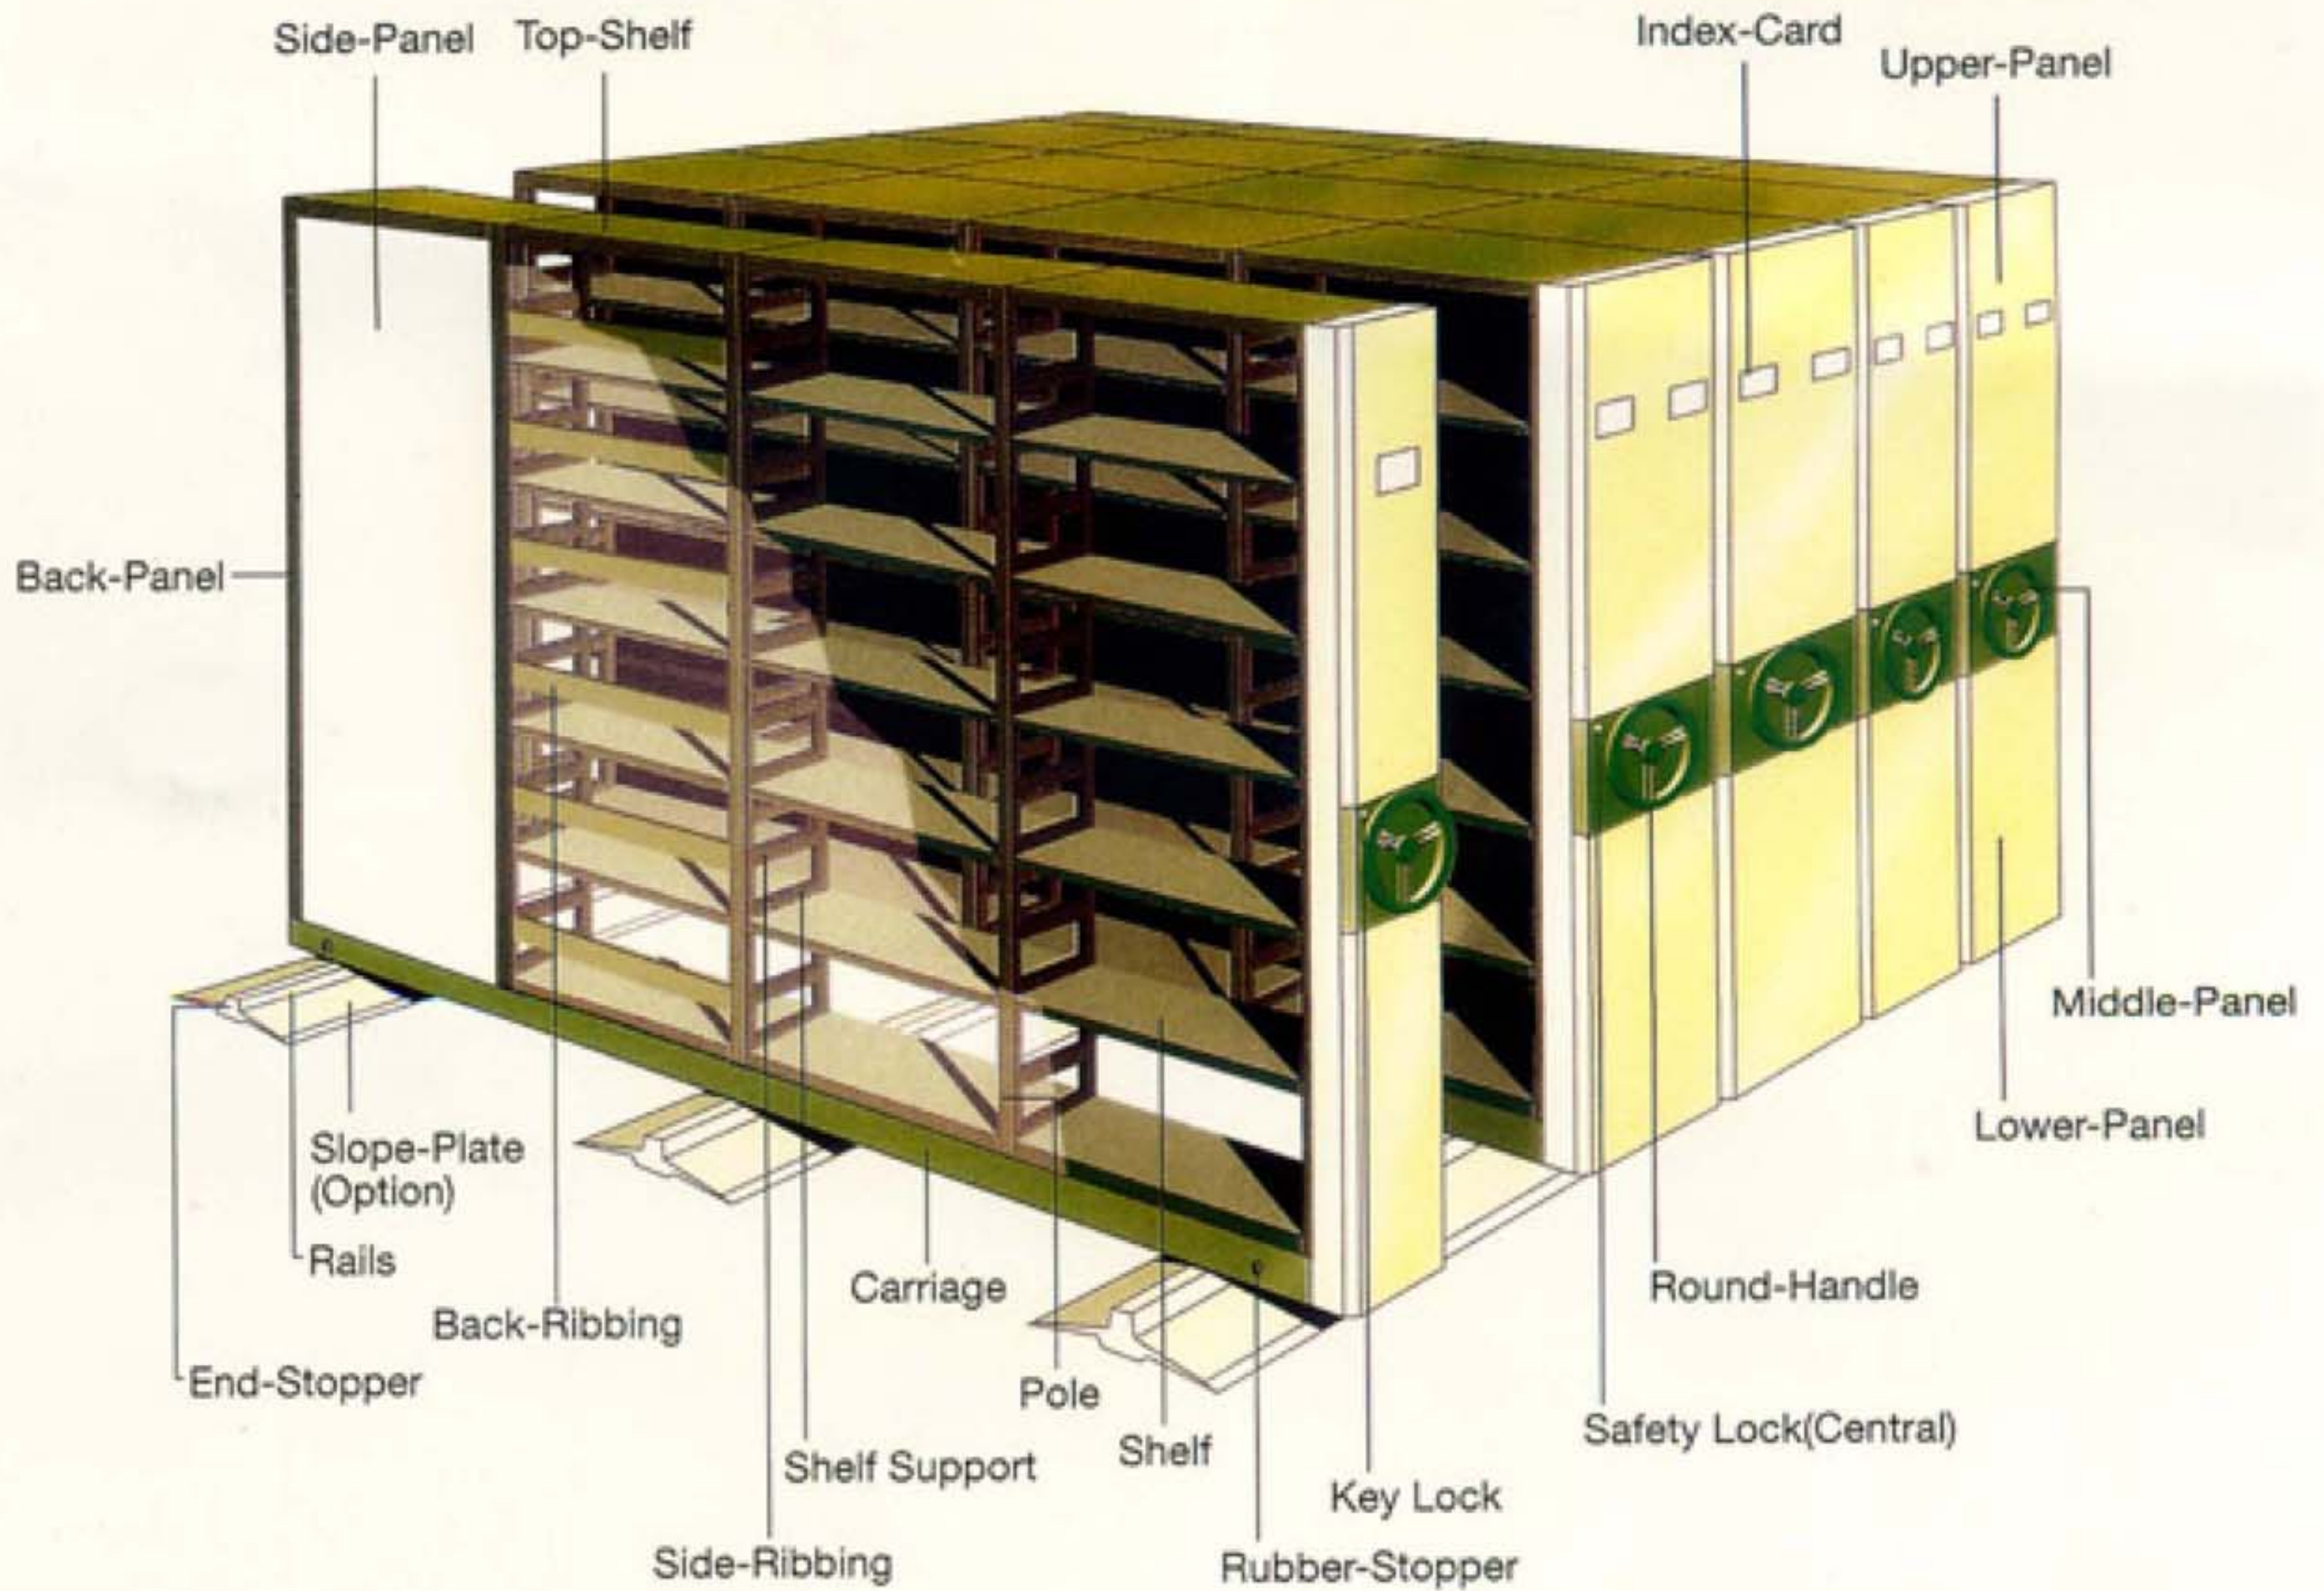

Mobile Stair

### SECURITY AND SAFETY CONTROLS

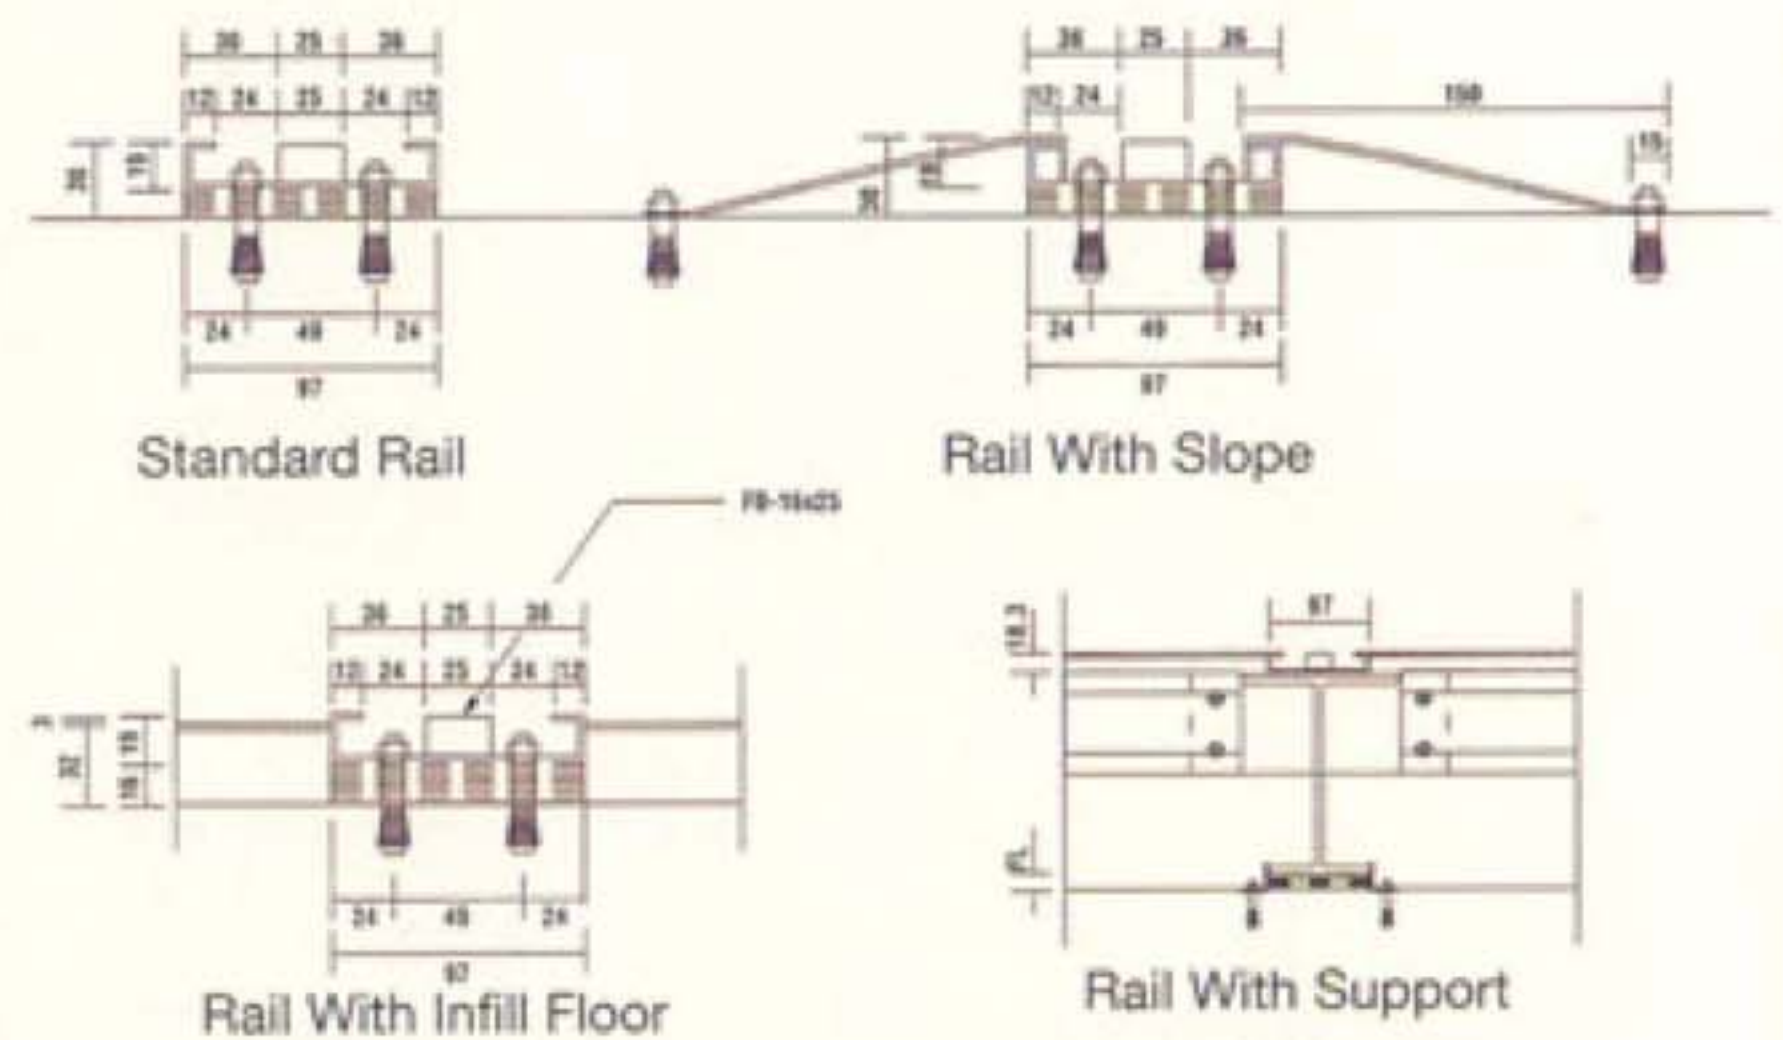

the rotary mobile shelving systems features push button locking device to automatically lock access area open while personnel are working in filing or storage area. key-lock featured on each cabinets together to eliminate access area and lock in closed position.

## PROVEN DESIGN AND ENGINEERING.

### TECHNICAL INFORMATION:

### SPECIFICATIONS:

Height(From floor level)
(H) 1844m/m(6 Feet)
(H) 2174m/m(7 Feet)
(H) 2444m/m(8 Feet)

Standard shelf size
(D) 220x(W)860x(H)30m/m
(D) 270x(W)860x(H)30m/m
(D) 310x(W)860x(H)30m/m
(D) 365x(W)860x(H)30m/m
(D) 420x(W)860x(H)30m/m

(Loading capacity: 70kg, per shelf)

Length(Overall)
(L) 1105m/m(1 Bay unit)
(L) 2005m/m(2 Bay unit)
(L) 2905m/m(3 Bay unit)
(L) 3805m/m(4 Bay unit)
(L) 4705m/m(5 Bay unit)
(L) 5605m/m(6 Bay unit)
(L) 6505m/m(7 Bay unit)
(L) 7405m/m(8 Bay unit)
(L) 8305m/m(9 Bay unit)
(L) 9205m/m(10 Bay unit)

Width(Front)
(W) 352m/m(S.S.F)
(W) 462m/m(S.S.F or S.S.M.)
(W) 482m/m(D.S.F or D.S.M.)
(W) 582m/m(D.S.F or D.S.M.)
(W) 662m/m(D.S.F or D.S.M.)
(W) 772m/m(D.S.F or D.S.M.)
(W) 882m/m(D.S.F or D.S.M.)

S.S.F :Single side fixed.  
D.S.F :Double side fixed.  
D.S.M :Double side Movable.  
S.S.M :Single side Movable.
